Ask the foundations of capitalism and how they can result in boom and bust cycles that derail generations of young lives and exacerbate social inequalities. This is an attractive movie for a return to the economic administration and a more close regulation instead of looking for alternative models of our economy. In fact, such is the variety of perspectives offered by the inner work that the International Monetary Fund (IMF), co -author of the debt crisis in many developing countries from the 1970s, is offered as a voice of
sanity and financial solidity amid surrounding madness. In fact, the former executive director of the IMF, Dominique Strauss-Khan, and her successor Christine Lagarde are among the witnesses interviewed. It is a revelation and will leave you captivated, fascinated and enraged. The information that learns in this movie will inspire and outrage.
Among the people interviewed for internal work are the billionaire investor and philosse Investment while serving as attorney general of the state of New York. We are also found with Glenn Hubbard, the former Bush Economic Advisor, who becomes defensive and thorny in response to the interviewer's specific questions. People lost their homes and investors and pension funds suffered great pages. In addition, he also plays an important role in the abuse of his personal profits. In addition to the failures of the sector, to regulate themselves, identify two other crucial factors for financial collapse and the lack of it.Å First, there is what one witness describes as a fÃÄÄWall Street
governmentfÃÄÄ, which pro-actively removed the layers of government scrutiny of the sector and its means of protecting account-holders and lenders.Å This is largely the consequence of key government appointments being offered to high-ranking sector insiders.Å For example, President George Bush JrfÃÄÄs Secretary of the Treasury Henry Paulson was a former Chief Executive Officer (CEO) with investment bank Goldman Sachs.Å Second, the documentary rightly excoriates the academic community in the US which, like the government and the banking sector, became a cheerleader for deregulation and refused to expose the growing liabilities of the banks and the risks to their stakeholders, mostly ordinary Americans with savings, loans and pensions. Å We see a tented city in Florida now home to many Americans left homeless after six million foreclosures in 2010 with another ten million predicted for 2011.Å Inside JobÅ is undoubtedly at its best when probing the banking sector and the fÃÄÄtype AfÃÄÄ personalities that led it to collapse.Å These impulsive and risk-taking Wall Street tyros often extended their amoral behaviour to using prostitutes and cocaine believing themselves to be invulnerable to any form of legal or moral accountability.Å This ultimately proved to be the case with not a single criminal prosecution reported of any of the financial executives complicit in the financial collapse.Å The legacy of the collapse is that inequality is higher in the US than any other developed society and many of the banks, like JP Morgan, are bigger now than before the crisis through a process of consolidation.Å Meanwhile, President ObamafÃÄÄs treasury team is almost entirely drawn from the financial sector and is headed by Timothy Geitner, who, as President of the Federal Bank Reserve during the crisis, ensured that Goldman Sachs received fÃÄÄ100 cents in the dollarfÃÄÄ for The bets he lost speculating against mortgages. Inside Job (2010) Sony Pictures, director Charles Ferguson, 1 hour 44 minutes. Internal work! 1.) Correction of such people! There is no doubt that corruption is the greatest problem of the documentary. Through financial engineering, these "toxic" mortgages were cut, cut into cubes and leaned into elegant packages and sold to external investors, which then lost when housing prices decreased and borrowers failed. The film clearly explains the developments with the help of graphic illustrations and Damon's narrative, in an easy way to digest. It's nice to observe both a financial layman and a well versed professional. Therefore, I must say that we must "eat the rich," as do Goldman Sachs, Morgan Stanley, Lehman Brothers, Merril Lynch, Bear Sterns and many more have done during the year 2008. First of all, the main, the main capitalists I have declared earlier were some of the people I blame, but realistically, more read articles about this, more I also get my perspective. Its elections, the global financial crisis that developed in 2007-08, led millions to bankruptcy and the economy to recession. Inspire younger generations to ask for transparency to the government, since everything is political and that is the work of the government. Similarly, in our generation at this time we do not necessarily need to have a power in corruption. And frankly, I think there is a serious lack of government intervention with all these capitalist activities thatlaicnanÃÄ~Ã~ eseht lla htiw ssensselcer rieht eciton llits nac uoy dna yb dessap dah shtnom ynaM .emit yna ta sloot esoh ni seciohc eikooc ruoy tsujda nac uoy dna ,setis sÂÄÄfRPN ot ssecca niatbo llits dna seikooc tcejer nac uoy
